I am fiery, passionate and dedicated International Music Promoter and Publicist.

The artists I promote I have worked hard to create a personal bond with and it is because my belief in them and their music why I have committed so much of my time and life to this journey . My artists and I truly perform as team building dreams we jointly share, I prefer to work with an exclusive few to be able to give them my full attention, and have turned down many offers for money only with no ties or bond to the Artist I am promoting, that simply is not me , I Care about the Artists , the Music and the Fans.

My journey promoting Indie Artists started several years ago, it began in London, that road led me to India, Asia and now includes Pakistan. I currently have Musicians ,Industry Executives and Music Lovers from over 20 Countries following me on Facebook, a true testament of the Power of Music to unite people , I have never been to many of these countries I have strong ties to but that is the magic of the world we live in today.

In 2010 I was Awarded Music Champion of the Year at AVIMA 2010 for my Work
